RE: Letters from Federal Election Commissions

Bart Ward

Attached are letters from the Federal Election Commissions regarding beginning cash balances not matching prior reports submitted. Attached are copies of the Reports in question. I have highlighted the balances from the Amended 12 day Pre-primary Report, the 7-24-2014 to 9-30-2014 report, the balances from October Quarterly Report and the balances from the year end report 10-1-2014 to 12-31-2014. I have reviewed the reports in question and the numbers in question do match up the the beginning balances in question.

Please review the attached information from your website and review the numbers in question.

If you have any questions please contact me. Michael Marquardt, P O Box 71, Rogers Mn 55374, Phone 763-428-4447.

Regarding the question of possible discrepancies regarding general election contributions and primary contributions, I am gathering the files necessary to look into this situation, however I need more time to go through bank statements and deposit receipts to verify that a problem does or does not exist. I ask for an extension of time for this considering I just received this work file today.
